A rider must successfully demonstrate the following:

**1. Start and stop**

Objective: Start the motorcycle, engage gear and accelerate, change gears, then do an emergency stop on a signal given by the instructor.

Assessment: Clutch control/gear changing/front and rear brake control.

**2. Slow ride**

Objective: Ride between markers as slowly as possible for six metres without putting feet down or crossing over the markers. Lanes marked out approximately 40 centimetres apart.

Assessment: Correct body position/clutch, throttle and brake control/balance.

**3. Figure eights**

Objective: Instruct candidates to ride in decreasing figure eights without stopping or putting feet down.

Assessment: Body position/weight distribution/clutch and throttle control.

After successful completion of all tests you may apply for a competition licence or purchase one-event licences. Your successful completion of the tests is valid for two years.
