

Sweep riders play an important part of Trail Rides, Guided Tours and Competition enduro events. Their duties will include but not be restricted to the safe circulation of riders on all tracks, to help and recover any injured riders, provide mechanical help and recover any motorbikes which have broken down.

## SWEEP RIDER REQUIREMENTS

The position of a sweep rider can be easily overlooked as being a crucial part of a trail ride or Enduro event. A sweep rider is someone who is a competent rider and owns and operates a safe and reliable dirt bike. Those who fill the sweep rider position are aware that their position as a sweep rider is to be taken seriously and that they are ultimately responsible for the safety of all other riders, officials and attendees. As a result of this, Motorcycling Queensland only allow clubs and promoters to utilise individuals who are 18 years or older.

At a trail ride or enduro event, a sweep rider **MUST** sign on the designated MQ sweep rider sign on form. They complete this form agreeing that they have read and understand their duties will include but not be restricted to the safe circulation of riders on all tracks, help and recovery to injured riders and mechanical help and recovery of motorbikes. They are also required to adhere to and be under the direction of the Promoting club management Committee, The Trail Boss, Race Secretary and Head Sweep Rider.

---
