General business:

- **QLD championship round 1:**

Jovian inspected the Extreme carting track at Pimpana with Tom Williams. He was pleased with the track and said he would be happy to approve it.

Extreme Karting are OK with the dates but we still require MQ track approval.

Noise control will be an issue. This will be thoroughly enforced with ongoing noise testing throughout the weekend. Stock pipes may be necessary. Riders who do not comply with this will not be allowed to race until their machine is made quiet enough for the track. This will be made clear in the supp regs.

A hotel on the Gold Coast will be used for trophy

presentation. A subsidized bar and food will be provided.

Sponsors:

Stay Upright have been approached for sponsorship and are happy to help out. Uber Moto will also be approached for trophies.
